Think and Grow Rich Self-Study Course

Week 1 Notes

Bill Marshall – www.poweraffirmations.com

As I have studied the material for the first week of this self-study course, I thought I'd share with you the points that stand out to me.

What was Andrew Carnegie's Secret?

Before I go further, I want to address the question of **"Andrew Carnegie's Secret."**

Here is what Napoleon Hill has to say in the Author's Preface:

"The secret [Andrew Carnegie's "secret"] to which I refer has been mentioned no fewer than a hundred times, throughout this book. It has not been directly named, for it seems to work more successfully when it is merely uncovered and left in sight, where THOSE WHO ARE READY, and SEARCHING FOR IT, may pick it up. That is why Mr. Carnegie tossed it to me so quietly, without giving me its specific name.

If you are READY to put it to use, you will recognize this secret at least once in every chapter. I wish I might feel privileged to tell you how you will know if you are ready, but that would deprive you of much of the benefit you will receive when you make the discovery in your own way."

It may be true that it's better that you discover the secret in your own way (who am I to argue with Napoleon Hill?), but I think it will be helpful to you if I share with you what I think his secret is. This will make it easier to see how often Hill repeats this point throughout the book. Here it is:

Organized effort directed towards a definite chief aim backed by a burning desire for its attainment.

So there are three parts:

1. **A Definite Chief Aim.** Also known as a Definite Major Purpose. You must know what you want. I think a good way to think of this is to create a clear mental picture of your goal in the completed state. This is why visualization, meditation, vision boards, and affirmations are so helpful. They help you to create a clearly defined mental picture. Unless you have a clear image of what you want, the odds are against your achieving significant goals.
2. **A burning desire for its attainment.** An ordinary desire is insufficient. It must be a burning, passionate desire. It must be an **obsession**.
3. **Organized Effort focused on a Definite Chief Aim.** Organized Effort actually includes a few different principles most importantly Organized Plans and the Master Mind.

HOW TO USE THIS MANUAL

The first part of this shop manual contains all information and procedures common to the CB/CM-400'S. After section 19, part two begins and it contains information and procedures for the Hondamatic models.

A 78½ Emissions Addendum follows the second part and it applies to all CB and CM400 models manufactured after December 31, 1977 (USA only).

Sections 1 through 3 apply to the whole motorcycle, while sections 4 through 17 describe parts of the motorcycle, grouped according to location.

Find the section you want on this page, then turn to the table of contents on page 1 of that section.

Most sections start with an assembly or system illustration and all the specifications, torque values, working practices, tools and materials required for the section. The subsequent pages give detailed procedures.

If you are not familiar with this motorcycle, read TECHNICAL FEATURES, section 18.

If you don't know the source of the trouble, see section 19, TROUBLESHOOTING.

Refer to the addendums at the back of the shop manual for 1978½ and subsequent years service information.
